# That's Where You Take Me

## Britney Spears

Oh baby, oh baby
Oh baby, oh babyIn love no believe I never found inside of me
Built these walls up so high
(So high)
Needed my room to breathe
Oh baby, oh baby
(Oh baby, oh baby)
You tear them down
Can't believe you changed my mind
Oh baby, oh baby
(Oh baby, oh baby)
I saw you smile
Stay with me awhileAll things fall into place
My heart, it feels so safe
You are my melody
That's where you take me
With you, I get so high
Lost in the crystal sky
You are this melody
That's where you take meI never fell before
How did you find the door?
(You find the)
The key to my soul, to you forever more
Oh baby, oh baby
You make me rise
Never did I once think twice
Oh baby, oh baby
You make me smile
Stay with me awhileOhh
All things fall into place
My heart, it feels so safe
You are my melody
That's where you take me
(You, that's where you take me)
With you I get so high
Lost in the crystal sky
You are this melody
That's where you take meAfraid to let it all inside
Now, I wanna hear you

Stay with me awhile
Stay with me awhile
La la la la la la
(La la la la)
La la la la la la
(La la la la)
La la la la la la
(La la la la)
That's where you take meAll things fall into place
(Yea yea)
My heart, it feels so safe
You are my melody
(Oh baby)
That's where you take me
(Take me, take me)
With you I get so high
Lost in the crystal sky
You are this melody
(Oh baby)
That's where you take me
(Oh yeah)All things fall into place
(I like that)
My heart, it feels so safe
You are my melody
That's where you take me
With you I get so high
Lost in the crystal sky
