

Guns & Roses

Lucky Dube

I don' t know why
I keep believing
That one day, they' ll bring us together
When they' ve shown
In more ways than one
That all they care about is the dollar
You belong to the one political party
I belong to the one musical party
Our differences are worlds apart
Just like guns and roses
If we don' t take control
Of the situation
We' ll stay forever in this ya commotionChorus: (x3)
These guns and the roses
That we' ve got to live withHow can five years of power
Destroy a lifetime of
Togetherness
One time we were judged
By the colour of our skins
Now we are judged
By the colour of our flags
Let us unite
Against being divided
You belong to the one political party
I belong to the one musical party
Let us take control of the situation
Otherwise we' ll be trapped in thisChorus: till fade
