Mount North

Immortal

A passage in the sky
Its sights so monumental
Tower the mountain range
Pointing towards the Nordlight
Its realm hearts the kings
In the shivering frostA horn monumental
Portals that throne in the sky
Above mountainsides
Pointing towards the Nordlight
Who dwell as gods of ice
Who rule the final realmMount North, the greatest of sights
Mount North, its power and might
Mount North, in the dark can be seen
Mount North, awaiting meA mountain of dark
To where the mysterious rise
Under its light call the stars
Out here I am cursed to wander
Its realm heart the kings
In the shivering frostMount North, the greatest of sights
Mount North, its power and might
Mount North, in the dark can be seen
Mount North, awaiting meMount North on unholy ground
Mount North, like blackened abound
Mount North as far as I see
Mount North, I shall enter thee
