Stick Your Tongue in My Mouth
Music & Lyrics by Rachel Farris 2012
Were all at da club and everybodys drinking
Everybodys thinking of hooking up
Were all at da club and everybodys dreaming
Everybodys scheming one night of love
I dont even know you or anything about you
But please stick your tongue in my mouth
Im giving you my number, wont hear from you tomorrow
But please stick your tongue in my mouth
Were all at da club, this place is full of rappers
They all act like they trappers strutting all their stuff
Were all in da club just chilling, under forty
And all of us are shorty dipping low for some love
I dont even know you or anything about you
But please stick your tongue in my mouth
Im giving you my number, wont hear from you tomorrow
But please stick your tongue in my mouth
You might have oral herpes or seven secret babies
But go ahead and stick it in my mouth
Youve had a lot to drink, youd never recognize me
But go ahead and stick it in my mouth
How low can you go (so low)
How low can you go (real low)
Were all on a boat just looking good and smiling
Stuck on Lonely Island soaking up the sun
Were all on a boat and really tired of waiting
Were made for food and mating dipping low just for fun
I dont even know you or anything about you
But please stick your tongue in my mouth
Im giving you my number, but wont ever hear from ya
But please stick your tongue in my mouth
You might have oral herpes or seven secret babies
But go ahead and stick it in my mouth
Youve had a lot to drink, youd never recognize me
But go ahead and stick it in my mouth
How low can you go (so low)
How low can you go (so low)
How low can you go, low, low
