

# Don't Wake Me Up

## The Hush Sound

You came to me  
In seamless sleep  
and slipped right in  
Behind my eye  
On the back of my mind  
We swam a sea  
Of pretty sights and chandelier skies  
I swore I could feel you breathe  
It was all so real to me

The light had slipped through the window  
The morning ripped you away oh

Don't wake me up  
I am still dreaming  
The story's undone  
Unraveled at the seams  
Don't wake me up  
Death is misleading  
And when I fall asleep  
I Sleep with a ghost

I moved in the dark  
The room calm and cold  
A quiet hollow  
I am such a haunted soul  
Your ghost is gone  
the bed is so cold

The light had slipped through the window  
The morning ripped you away oh

Don't wake me up  
I am still dreaming  
The story's undone  
Unraveled at the seams  
Don't wake me up  
Death is misleading  
And when I fall asleep

I sleep with a ghost

Oh you were a fire caught in a storm  
Memories like embers keep us warm  
You will leave me in the morning  
leave me

The light had slipped through the window  
The morning ripped you away oh.
