

# Listen

## Chicago

Listen

If you think that we're here for the money  
You could be right, you know  
But the bread is not too good here  
Wasn't always like that, you know  
I said, "All you got to do is listen" Listen  
If you don't hear it you can tell us  
If it's good you can tell us so  
Or you can smile, that's alright my friend  
It could be so nice, you know  
If only you would listen Listen  
If you don't understand it, no no no no  
You got to try to fly  
And don't you put me down, please  
For creating beyond your mind  
I said, "All you got to do is listen"
