

Let's Be Romantic

Babyface

Let's be romantic baby
Let's stay in love When I think of the magic
And all that it means to me girl
Girl I get so, so excited
Oh thinking of love and all it's possibilities
And to think of, madness
So many broken homes, so many broken hearts
Well baby that won't be you and me
Together we'll both make history
'Cause we got a love so strong we're boundless through time Let's be romantic baby
Let's be the ones who stay in love
Let's make a promise
Let's stay in love Just to think of us is magic
It's such a sweet melody
Baby, afraid that we don't abuse it
For darling a love like this to go so easily
Oh to think of, sadness
So many hearts all day are lost and torn apart
Oh baby that won't be you and me
Together we'll both make history
'Cause we got a love so strong we'll last through all time Let's be romantic baby
Let's be the ones who stay in love
Let's make a promise
Let's stay in love Let's be romantic
Let's stay in love
All we gotta do is just keep it up
Keep on givin' up my love
Let's show the world that we're still in love
One love is greater than all Let's be, let's be romantic
Let's stay, let's stay in love
Let's be the
Let's stay in love Let's be, let's be romantic
Let's stay, let's stay in love
Come on my sugar
Love, hey yeah Let's be romantic
Let's stay in love
All we gotta do is just keep it up
Keep on givin' up my love
Let's show the world that we're still in love

One love is greater than all Let's be romantic baby

Let's be the ones who stay in love

Let's make a promise

Let's stay in love Let's be romantic baby

Let's be the ones who stay in love

Let's make a promise

Let's stay in love Let's be romantic baby

Let's be the ones who stay in love

Let's make a promise

Let's stay in love Let's be romantic baby

Let's be the ones who stay in love
