

These Days

Revive

[Brian:] These days I've been feeling lucky Looking all around me I see so many dreams that have come true
Like me right next to you, like the angels pulling through These days have only just begun Someone to come
home to each and every night [Ronan:] All of my tomorrow's are finally looking bright, over I won't rush it,
why would I dare Nothing could compare [Both:] To the way I've been feeling They are the best I've ever had
These days And they have only just begun Like a moon is to the sun Here we are we're so connected I never
thought I'd feel this way Cause all I ever wanted, were these days [Ronan:] Sometime, woah, fly like the flame
that never dies If I could, I'd try to freeze the moment Set aside the future, stay right here, right now Like the
love that's in your eyes These days, have only just begun [Brian:] Something to believe in when the world is
going mad When the rain is crashing down girl it doesn't seem so bad (doesn't seem so bad) [Ronan:] [Brian:] I
won't rush it [Ronan:] No, why would I dare [Both:] Nothing could compare to the way I've been feeling
[CHORUS] And they have only just begun They are the best I've ever had Here we are we're so connected Like
a moon is to the sun [Brian:] I never thought I'd feel this [Ronan:] I never thought I'd feel this way, baby
[Brian:] In fact it happens when I pray [Both:] Cause all I ever really wanted Were these days [x 4 to face] All I
ever really wanted All I ever really wanted was (these days)
