Yea (You love me)

Yea

nae ujuneun jeonbu neoya[English]Oh yeah! C'mon!Take your time.  
For some reason this night is making my heart pound. (Na Na Na Na x2)  
So tonight

let's try running to the far edge of the moon. (Yea Yea Yea Yea x2)Just right,  
I start the ignition and put my foot on the accelerator.  
Everything is special,  
it suits you so well.

No matter what you want, Imma make it work (yeah).Shawty, Imma party till the sun dawns.\*

What is this mysterious feeling I have right now.  
Come to me, hurry, before the sun rise(s).

Without you, no matter where I go I see nobody (yeah), oh!On the road, this is our runway.

In your eyes looking at me I see the Milky Way.  
Just love me right, (aha!)

Baby, love me right. (aha!)Oh, come to me, don't hesitate.  
You're my captivating universe.  
Just love me right. (aha!)

You're my entire universe.Just love me right. (x3)  
You're my entire universe.Shine a light, fly in the starlight,  
crossing the Milky Way.

We can't stop, oh yeah!The moonlight lighting our way is everlasting,  
I'm wandering in orbit around you still.

I can do this all night long, baby.

Without you, no matter where I go I'm missing my other half.  
Oh!A night of radiant moonlight, the stars are playing with fireworks.  
Let's try flying just a bit higher. (Let's try flying.)  
In this moment where my heart feels like it might explode  
I can only think of the two of us.

With the earth beneath our feet, love me right.On the road, this is our runway.

In your eyes looking at me I see the Milky Way.  
Just love me right, (aha!)

Baby, love me right. (aha!)So come on, baby, it's so blinding  
in your beautiful universe. (Beautiful lady.)  
Just love me right. (aha!)

You're my entire universe. (Oh!)Just love me right.  
Just love me right. (Can you love me right?)  
Just love me right.

I just wanna make you love me. (You're my entire universe.)No matter the countless amount of nights that  
come to me,  
you'll still be the only one shining in my sky. (Woo yeah.)  
Only whisper to me.  
We begin to dye the night sky.On the road, this is our runway.  
In your eyes looking at me I see the Milky Way.  
Just love me right, (aha!)  
Baby, love me right. (aha!)Oh, come to me, don't hesitate.  
You're my captivating universe.  
Just love me right. (aha!)  
You're my entire universe.Just love me right. (Oh oh oh yeah.)  
Just love me right.  
Just love me right. (Time all to ourselves.)  
You're my entire universe.Just love me right. (x3)  
(A thrilling cosmic ride, our own night flight.)  
I just wanna make you love me.Yea (woo, you got to love)  
Yea (you got to love me)  
Yea, you're my entire universe. (You're my entire universe.)  
(You love me.)Yea (you love me.)  
Yea (you love me.)  
Yea, you're my entire universe.
