Freedom

Sugababes

I like the lights when they hit your face
You're as good as blind, it blackens out your gaze
And we're on fire but I'm too caught in you to care
Let's walk away into the night
It's getting late but we're right on time
You and I wanna be nameless for a little while
So raise your hand, one fist in the air
For freedom
For being alive, not having a care
For freedom
'Cause tonight is the night
Where we break the speed of light
So stand up, come alive
Liberate yourself 'cause freedom starts tonight
Stand up, stand up, stand up, stand up
Stand up, stand up, stand up, stand up
I love the night, the way it covers us
You're acting shy, but you're curious
Let's play with fire cos we're too deep in this to care
So raise your hand, one fist in the air
For freedom
For being alive, not having a care
For freedom
'Cause tonight is the night

Where we break the speed of light
So stand up, come alive
Liberate yourself 'cause freedom starts tonight
Stand up, stand up, stand up, stand up
Stand up, stand up, stand up, stand up
Freedom!
Tonight, tonight we're gonna live our lives
Tonight, tonight we're gonna live our lives
Say freedom!
Freedom!
Freedom!
So raise your hand!
Freedom!
So raise your hand, one fist in the air

For freedom
For being alive, not having a care
For freedom
'Cause tonight is the night
Where we break the speed of light
So stand up, come alive
Liberate yourself 'cause freedom starts tonight
Stand up, stand up, stand up, stand up
Stand up, stand up, stand up, stand up
Freedom!
