# Starman

## Sally Shapiro

When?
It happened so fast
those visions in my mind
although could it pass
your other different path
it seems you come down from the stars,
and somehow you are still so much human then they areI want to know you, mister Starman
I want to love you, mister StarmanLove, can happen so fast,
and some say that's it's mine
the future is past
you're from a different time,
tell me is is from there that you came?
a different sense I'll ask
but our hearts are still the sameI want to know you, mister Starman
I want to love you, mister Starman
I want to know you, mister Starman
I want to love you, mister StarmanDon't go away alone
Don't go away aloneI want to know you, mister Starman
I want to love you, mister Starman
I want to know you, mister Starman
I want to love you, mister Starman
