6 O'Clock Bad News

CECILIO & Kapono

I can't get used to this, running around
I find myself chasin', the blues that I've found
And everyone's hustlin', together they drown
In all this confusion going upside down, down, down...

6 o'clocck bad news, is on every day
people out shootin', some getting paid
And others abusing the, energy delay
The weather report is the, best news today..hey, hey
What's the use of complaining, when nothin' gets done.. hey,hey,hey
What's the use of restraining, from having some fun..hey,hey,hey

Yesterday's moving to fast in the rain
And everyone's tastin', a bit of the strain
And bogged down by pressures like, pulling a train
uptight in traffic, trying to keep your sane.....
