Pigeonhole Disease

Buck-O-Nine

Our systems are all go
No one here's getting pigeonholed
There's a free line to where we go
Where anything is possibleWe're alright
'Cause we do what we do and we do it every night
Well, alright
Everyone's got opinions of what's rightBut we do what is inside
And still the people will decideBut we're free from disease
We're free from your pigeonhole disease
We're gonna do as we please
'Cause that's rightWell, I can feel it, we're in the know
Since being jaded by the business world
We don't fit in, we don't want in
But we know we're never gonna break the chainAlright
In looking back, we'd do it all again
But in the future
We're not gonna be labeled victimsWe do what is inside
And still the people will decideWe're free from disease
We're free from your pigeonhole disease
We're gonna do as we please
'Cause that's right, that's rightWe do what is inside
And still the people will decideWe're free from disease
We're free from your pigeonhole disease
We're gonna do as we please
Do as we please, do as we please
That's right
