This Is All Bigger Than Me

Moneen

Hey, how are you?
I think I might explode
I found a box
Which said 'Open And Choose'You'll find 2 notes
One says 'You Might Succeed'
The other reads
'You'll Ruin Everything'You want them to like all the things you've said
You're still talking backwards and off your head
Been running in circles for way too long
I hope your corporation dies, it diesI'm sorry for thinking
I'm sorry for what's been said
I watched them all
While they burned it downYou want them to like all the things you've said
You're still talking backwards and off your head
You're running in circles for way too long
I hope your corporation diesYou want them to like all the things you've said
You're still talking backwards and off your head
Been running in circles for way too long
I hope your corporation diesI hope it dies
I can't wait to be there to see you burn
