

# Wish I

Jem

Baby, you're sailing today  
Baby, you're sailing away  
Sugar, wish I could go too  
But honey you know  
I'm happy for you Wish I, I wish I, I wish I  
Wish I was going too Baby, your ship has come in  
Baby, adventures will begin  
Sugar, don't you worry 'bout me  
'Cause honey you know  
Want you to be happy Wish I, I wish I, I wish I  
Wish I was going too But if you find that you don't like it  
That the people there aren't inviting  
Or that city life is too frightening  
Won't you come home? But if you find that you don't like it  
That the people there aren't inviting  
Or that city life is too frightening  
Won't you come home? Please come home Wish I, I wish I, I wish I  
Wish I was going too  
Wish I, I wish I, I wish I  
Wish I was going too
