## Seether

Its all too revealing
Your words are deceiving
I cant let you get in my way
I sense all your actions are meant as distractions
You must know I wont play your game
Fake! youre more than I can take
And somethings gonna break!
Get out of my head
No shame! youre passing all the blame
And nothings gonna change!
Get out of my head
You made me realize that its all a lie
And it comes as no surprise
Stay for a while
Stay cause you make me smile
Theres no compromise!
Im sick of pretending
The thoughts are unending
I cant let you get in my way (theres no way home)
Im no longer bending
My mind set is mending
And now I have something to say (deny me)
Fake! youre more than I can take
And somethings gonna break!
Get out of my head
No shame! youre passing all the blame
And somethings gonna change!
Get out of my head
You made me realize that its all a lie
And it comes as no surprise
Stay for a while
Stay cause you make me smile
Theres no compromise
(instrumental)
Fake, youre more than I can take
And somethings gonna break
Get out of my head
Shame!, youre passing all the blame
And nothings gonna change!

Get out of my head
You made me realize that its all a lie
And it comes as no surprise
Stay for a while
Stay cause you make me smile
I see no compromise
Stay for a while
Stay cause you make me smile
I see no compromise
Stay for a while
Stay cause you make me smile
Theres no compromise
