

# Precious Thing

## Llorca

I would like to wrap your hair round your neck like a noose  
I would like to wrap your legs around my neck like a lock  
    You are my precious thing, thing of speed and beauty  
You are my precious thing, as long as you remain beneath me  
    I will hold you down, I will hold you down  
        I will pin you down  
    I will hold you down, I will hold you down  
        I will mm mm down you  
        You are my precious thing  
        You are my precious thing  
        You are my precious thing  
    I will hold you down, I will hold you down  
        I will pin you down  
    I will hold you down, I will hold you down  
        I will pin you down  
    I will hold you down, I will hold you down  
        I will mm mm down you  
    You are my precious thing, thing of speed and beauty  
        You are my precious thing  
        You are my precious thing, thing of speed and beauty  
You are my precious thing, long as you remain beneath me
