No Violins

[Roger Taylor](#)

We were talkin' about the old times
We went walkin' down the streets we used to run
Remember when you were angry about every cause to be had?
We weren't all bad

I'm not talkin' about security complex
I ain't talkin' about some monochrome duplex
I ain't talkin' about some new kinda weird sex
I'm just talkin' about you and me (ooh)
The way we used to be
Hey, I'm just talkin' about you and me brother
I'm just talkin' about another time and place

We were hungry, we were mad
We were angry, we were glad
We were really jack the lad
We weren't all bad

We went down, we cruised round
We went down, down, down in the violence
We went around, we went around-round-round
We didn't hear no violins

Where's the madness, where's the fire
With the flames gettin' higher
Where's the saints and the liars

Oh-oh-oh-oh
I'm not talkin' about security complex
I ain't talkin' about some monochrome duplex
I ain't talkin' about some new kinda weird sex
I'm just talkin' about you and me
The way we used to be
Oh, I'm just talking 'bout you and me brother
I'm just talkin' 'bout another time and place

We were hungry, we were mad
We were angry, we were glad
We were really jack the lad

We weren't all bad

We went down, we cruised round
We went down, down, down in the violence
We went around, we went around-round-round-an'-round
We didn't hear no violins

Where's the madness, where's the fire
With the flames gettin' higher
Where's the saints and the liars

We went down, we cruised round
We went down, down, down in the violence
We went around, we went around-round-round-round
We didn't hear no violins

We went down, we cruised round
We went down, down, down in the violence
We went around, we went around-round-round-round
We didn't hear no violins
