Dance to Me

StorySide:B

You're the only one I know, you're the only one I'll show
Just how deep my love runs through
I take a leap of faith towards you
I face the whole world
Living fearless, take me as I am
Know me, this is who I amYou're why I've searched this world, you're what I've waited for
Stay here won't you please, dance to meYou've showed me for the first time, love is so perfect, so divine
Show me how, turn me around, touch me now, feeling the sound
I can see you, flow so freely
Turning, then you look at me and sayYou're why I've searched this world, you're what I've waited for
Stay here just for a while, stay here just you and IYou're all I'm dreaming of, you waking in my arms
Stay here won't you please, dance to meTake me away
