Call Out My Name

Inkubus Sukkubus

You're laying on your bed on a hot summer night
Underneath the lunar light
I am a dream I am a phantom of desire
Call out my, call out my nameCall out my name, call out my name in the night
For a bitter love, for a bitter pain
Call out my name, call out my name in the night
For a bitter love, for a bitter painI've come a calling from a thousand ages past
I was the first, I'll be the last
I am a scratching on the windows of your soul
Call out my, call out my nameCall out my name, call out my name in the night
For a bitter love, for a bitter pain
Call out my name, call out my name in the night
For a bitter love, for a bitter painCall out my name, call out my name in the night
For a bitter love, for a bitter pain
Call out my name, call out my name in the night
For a bitter love, for a bitter painCall out my name, call out my name in the night
For a bitter love, for a bitter pain
Call out my name, call out my name in the night
For a bitter love, for a bitter painCall out my name, call out my name in the night
For a bitter love, for a bitter pain
Call out my name, call out my name in the night
For a bitter love, for a bitter pain
