Memory Like That

Adam Gregory

There are moments in your life that are frozen in your mind
That will change the heart of how you feel forever
And I remember the rain, the sky was black
You were tryin' to fix a flat I knew I'd never be the same
The second I pulled over
It was me, it was you the world fell away from where we stood
And the ground around us moved we were soaked to the bone
We slipped and fell, but we both laughed
And only love can make a memory like that, a memory like that
The very first time that we kissed I felt your fingers on my skin
As they wrote the words I love you, baby
There are reasons for the rain I can still see yesterday
All I have to do is close my eyes

To picture our first memory
It was me, it was you the world fell away from where we stood
And the ground around us moved we were soaked to the bone
We slipped and fell, but we both laughed
And only love can make a memory like that, a memory like that
Right here, right now we're making new memories of you and me, yeah
It was me, it was you the world fell away from where we stood
And the ground around us moved we were soaked to the bone
We slipped and fell, but we both laughed
And only love can make a memory like that, a memory like that
Only love can make a memory like that, a memory like that
