Typical Situation

Dave Matthews

Ten fingers counting we have each nine planets
Around the sun repeat
Eight ball the last if you triumphant be seven oceans - pummel
The shores of the sea
It's a typical situation, in these typical times
Too many choices, hey yeah
It's a typical situation in these typical times
Too many choices, well Everybody's happy everybody's free
Keep the big door open, everyone'll come around
Why're you different, why are you that way
If you don't get in line we'll lock you away
It all comes down to nothing
Six senses feeling five around a sense of self
Four season turn on and turn off
I can see three corners from this corner
Two's a perfect number
But one, well Everybody's happy everybody's free
We'll keep the big door open, everyone'll come around
Why are you different, why you that way
If you don't get in line we'll lock you away, Aow everybody's happy everybody's free
We'll keep the big door open, everyone'll come around
Why are you different, why are you that way
If you don't get in line we'll lock you away It all comes down to nothing
It's a typical situation in these typical times
Too many choices, hey ya
It's a typical situation in these typical times
Too many choices
We can't do a thing about it oh
Too many choices, hey ya
It's a typical situation in these typical times
Too many choices, yeah yeah
Everybody's happy everybody's free
keep the big door open, everyone'll come around
Why are you different, why are you that way
If you don't get in line, we'll lock you away, everybody's happy everybody's free
We'll keep the big door open, everyone'll come around
Why are you different, why are you that way
If you don't get in line we'll lock you away
...

Everybody's happy and everybody's free
We'll keep the big door open, everyone'll come around
Why are you different, why are you that way
If you don't get in line, we'll lock you away
Everybody's happy, everybody's free
If you dont get in line, you wait and see
Everybody's different, Everybody's different
Everybody's different, Everybody's (inaudibale)
