

That's How It Goes

Kristine W

So where are you at Kristine
You blush as you look at me
I smile 'cause I want to make sure that you truly understand
I'm right where I've always been
Our love is where it's meant to be
Inside and our hearts are going to prove that the future is our friend
When you hold me that goes to show me
It's a true love story
And Baby I know That's where it goes from here
That's where it goes from here we are a magical
Love yeah
That's how it goes for you and me
That's how it goes
That's how it goes from here
We're an original
Love yeah
That's how our love was meant to be
That's how this love was meant to be Now Baby we can't look back
Our love shouldn't go that way
Tomorrow is the only thing we need
It's all that I can see
Now lover we're right on track
Getting stronger everyday
I know that your running out of reasons for insecurities
Come on and hold me
Love how you show me
Time will write our stories
And Baby I know That's where it goes from here
That's where it goes from here we are a magical
Love yeah
That's how it goes for you and me
That's how it goes
That's how it goes from here
We're an original
Love yeah
That's how our love was meant to be
That's how this love was meant to be This is it, This is us
Love is where we are
It's down to faith...It's down to trust

Follow your heart right into these arms
Hold me...show me
It's a true love story
And I know cause That's where it goes from here
That's where it goes from here we are a magical
Love yeah
That's how it goes for you and me-
