Afraid

J. Moss

(chorus)
not gonna be afraid no more
fear dont live here no more
not gonna be afraid no more
pain just walked out that door
that spirit aint here with me
God didnt put that in me
But the spirit of power and love
and oof sound mind
of sound mind
verse 1
waking up every day
thinking what im gonna pay
with the money i made
thinking what im gonna say
when the wife ask me
where the money we saved
use the loot for the gas bill
to pay the rent
more loot from the light bill i spent
dont wanna get the phone
cause it just keeps ringin
alot of things through the mail
got me thinkin i can make it
if i use more debt
get a refi on the crib
but the loan man keep sayin not yet
i rob pete make a deal with paul
prayin that pink slip dont fall
brother aint got time
too much on the grind
im gone let it go
trust God let Him know
Chorus
Seems like every day
somethin worse poppin up
on the news report

should i keep the kids home from school

should i stay away from the airport
using fear as a weapon revoke hate
everybody think the world aint a safe place
dont wanna use the phone cause it might be
shhh somebodies listening
alot of views got me all confused
and i really dont know what to think
(we got)
executives, liberals, activist, sprital, hipocrits
on the brink
one nations deadly call
results in another nations fall
people aint got time
too much on the grind
we gone let it go
trust God let Him know
Chorus
gas up through the roof
and i just bought a hummer and convertibl coupe
tryna keep a little juice in the boose
in my trunk
but the loots in use
PAJAMs working over time
keeping hope alive
keeping Moss in the ministry and public eye
but hypothetically what happens if the phone stops ringin
its my belief (not gonna be afraid no more)
of poverty (not gonna be afraid no more)
not losing sleep (not gonna be afraid no more)
of running out of money (not gonna be afraid no more)
racist (not gonna be afraid no more)
terrorists (not gonna be afraid no more)
brother aint got time
too much on the grind
imma let it go
trust God let Him know
Chorus (x2)
