

Good Together

Honne

I dream it all the time, girl
Waking up warm in your arms and without a care
No money ain't a problem, girl
Just give me the time and the place, and I'll be there, oh 'Cause I would go the distance for you, baby
I'd travel 'round the world if you would let me
I'll meet you where the sun it always shines
You're on my mind, all the time
We are not wasting this 'Cause you and I, we're good together, oh
You always get me feeling better and I know you stay by my side
You make me feel much better
'Cause girl we're good together And I tell you all too much, girl
But I want you to know what you got is a natural gift
I'd unwrap you all the time, girl
Don't wanna be rude but I would, do you catch my drift? Yeah 'Cause I would go the distance for you, baby
I'd travel 'round the world if you would let me
I'll meet you where the sun it always shines
You're on my mind, all the time
We are not wasting this 'Cause you and I, we're good together, oh
You always get me feeling better and I know you stay by my side
You make me feel much better
'Cause girl we're good together 'Cause you and I, we're good together, oh
You always get me feeling better and I know you stay by my side
You make me feel much better
'Cause girl we're good
'Cause you and I, we're good together, oh
You always get me feeling better and I know you stay by my side
You make me feel much better
'Cause girl, we're good together, oh
