

Shameful Dread

Built to Spill

before I get myself unwound clearcut faith come around docility is tempting bait you settle with a different god
tiny thoughts hundreth start no other way to come to terms no need to learn I'm hoping for a change of heart
barely shown I'll never let you in my head a president I call my own I'm hoping for a change of hope til I spent
some time with you shameful dread doesn't float thought that everything I do has no weight doesn't float has no
weight doesn't float Gonna see this through has no weight lucky you
