

Cut-Out Witch

Guided By Voices

Do you suppose she could change your life?
If she could then I wish she would
Do you suppose she could save my life?
If she could then I think she should
It's another busy day for the cut-out witch
Silver threads for her hands, need another stitch
Cold needles in her eyes, then we realize
It's another busy day for the cut-out witch
I wish she'd change this wrong into a right
Say pretty please and I think she might
Cause if she won't, then you'll fall, and bust
And turn to dust, so I think, she must
It's another busy day for the cut-out witch
Silver threads for her hands, need another stitch
Cold needles in her eyes, then we realize
It's another busy day for the cut-out witch
