

# Soul Experience

## Iron Butterfly

Be yourself and live a little  
Don't bother painting your face  
Tomorrow it may rain and colors run  
Better it quench the flowers thirst Don't be afraid to live a little  
Don't be afraid of the people that belittle our love  
Oh, our love, oh our love Open up your thoughts and listen to others  
Your fellow man may surprise you  
He offers a unique item, soul experience  
Help yourselves to each other Don't be afraid to live a little  
Don't be afraid of the people that belittle our love  
Oh, our love, oh our love Open up your thoughts and listen to others  
Your fellow man may surprise you  
He offers a unique item, soul experience  
Help yourselves to each other Don't be afraid to live a little  
Don't be afraid of the people that belittle our love  
Oh, our love, oh our love, our love Just be yourself  
Just be yourself  
Just be yourself  
Just be yourself  
Oh our love, oh our love, oh
