

Angel In Black

Primal Fear

Feelin' the anger inside me
I'm chosen to lose this game
To get me will not be so easy
To kill me not even the same I'll stand the fight
My pride is victory There is blood there is pain
But my agony is not in vain
'Cause there's life after death
And I'm sure comin' back to attack
As an angel in black Hidin' myself in the city
So dark 'cause it's ruled by the ghosts
Footsteps of iron behind me
The sword of the king I fear most Back in the light
I face my destiny There is blood there is pain
But my agony is not in vain
'Cause there's life after death
And I'm sure comin' back to attack
As an angel in black There is blood there is pain
But my agony is not in vain
'Cause there's life after death
And I'm sure comin' back to attack There is blood there is pain
But my agony is not in vain
'Cause there's life after death
And I'm sure comin' back to attack
As an angel in black
Angel in blaaack
