

Floating

Kaskade

Featuring Haley

Now In the silence
I find myself alone
It's just what I wanted
To be on my own

Floating on the water
Stare at you tonight
So keep up the magic
Space of time you light

Now in this small bed
When all have gone away
It's the time that I bonded
The time that I prayed

(x2)

Floating on the water
Stare at you tonight
So keep up the magic
Space of time you light
