

# Break The Chain

## Protest The Hero

PUNK IS FUCKING DEAD!

and its been killed by spiky haired kids that are being filled  
with the idea that the world is beautiful and free  
but they've been raised by ideologies

Land Of The Free

Don't want my balls owned by a private company  
what are you trying to be?  
the image the media sells

In the darkness, no one can see  
you wear the chain of ideology  
We've made a false idol of the CEO  
thats something all your children should know  
because they've destroyed the future  
the future of tomorrow
