

Scream With Me

Mudvayne

Ever feel like dying,
Ever feel alone,
Ever feel like crying,
Lost child in a store,
Ever feel life pushing,
Shoving you away,
Ever feel like breaking down,
Funeral in the rain Feel like slipping away,
Stand in the corner and scream with me,
A body full of empty,
A head that's full of rage,
Better believe it,
Stand in the closet and scream with me
A mind that's like a fire,
Driven by the pain,
Better believe it Ever feel like lying,
Down inside a grave,
Listen to the eulogy,
A buyer of the hate,
Ever dance beside the devil,
Taste the barrel of a guage,
Ever pull the trigger,
The light begins to fade, Feel like slipping away
Stand in the corner and scream with me,
A body full of empty,
A head that's full of rage,
Better believe it,
Stand in the closet and scream with me
A mind that's like a fire,
Driven by the pain,
Better believe it I've asked you for forgiveness,
I've asked you for your grace,
I've asked you for your blessing,
I've asked that I be saved, Stand in the corner and scream with me,
A body full of empty,
A head that's full of rage,
Better believe it, Stand in the corner and scream with me,
A body full of empty,
A head that's full of rage,

Better believe it,
Stand in the closet and scream with me
A mind that's like a fire,
Driven by the pain,
Better believe it Stand in the corner and scream with me,
A body full of empty,
A head that's full of rage,
Better believe it
Driven by the pain,
Better believe it
