

All I've Ever Known

Bahamas

In every breath there's life
Between my teeth a knife
Pronounced us man and wife
For evermoreCause once you've found your thrill
 You move in for the kill
 I'd chase you up the hill
And all through timeAnd now my memory
 Seems to be failing me
 What once was fantasy
Is all I've ever knownThe thing I miss the most
 Lives in some demon host
 I know you're not a ghost
 Just down the street
