

# Off The Road

**Neil Young**

When the day is done  
And the sun is sinking low  
When you see the light  
When you been most everywhere  
You go  
    You goWhen the traffic's slow  
Break lines lined up for miles and miles  
    And you know the end is not in sight  
You can never take your rides  
Off the road  
    Off the roadWhen you're all alone  
And you've been driving through the night  
    And you know the end is not in sight  
You can never take your rides  
Off the road  
    Off the road
