

# I Travel (Edit)

## Simple Minds

Cities, buildings falling down  
Ideal homes falling down  
These pictures I see on the wall  
Timeless leaders stand so tall  
Assassin in a hit and run  
Asia steals a new born son  
Evacuees and refugees  
Presidents and monarchies Travel round  
I travel round  
Decadence and pleasure towns  
Tragedies, luxuries, statues, parks and galleries Europe has a language problem  
Talk, talk, talk, talk, talking on  
In central Europe  
Men are marching  
Marching on and marching on  
Love songs playing in the restaurants  
Airport playing "Bi Some Lo" Travel round  
I travel round  
Decadence and pleasure towns  
Tragedies, luxuries, statues, parks and galleries Europe has a language problem Europe has a language problem  
America has a language problem  
I Travel  
Euro-Bureau-Interpol  
Making love to the criminals  
Asia has a language problem  
I Travel  
And on and on and on and on and on and on and on
