

# The Ones You Love

[Rick Astley](#)

Children cry on the street  
They don't have enough to eat  
Mothers wait for days on end  
A hopeless situation they can't mend  
Is it good for you? Is it good for me?  
I don't know how the world can sleep  
It's just not right  
To close the door turn out the light  
They'd better be the ones you love  
The children ought to get some love  
If no one else should ever get enough  
They'd better be the ones you love  
Daddy waits there in line  
A little work he hopes to find  
Something wrong with times like these  
It's enough to bring a man down to his knees  
Is it good for you? Is it good for me?  
Well I don't know how the world can sleep  
It can't be right  
To close the door turn out the light  
They'd better be the ones you love  
The children ought to get some love  
If no one else should ever get enough  
They'd better be the ones you love  
They'd better be the ones you love  
The children ought to get some love  
If no one else should ever get enough  
They'd better be the ones you love  
Thinking of, thinking of the children  
The children deserve some love  
Thinking of, you better be think about the children  
The children deserve our love  
Better be, you better be, thinking of  
They better be the ones you love  
Better be, you better be, thinking of  
Better be the ones you love, yeah yeah yeah  
Is it good for you? Is it good for me?  
I don't know how the world can sleep  
It's just not right

To close the door turn out the light  
They'd better be the ones you love  
The children ought to get some love  
If no one else should ever get enough  
They'd better be the ones you love  
They'd better be the ones you love  
The children ought to get some love  
If no one else should ever get enough  
They'd better be the ones you love  
They'd better be the ones you love  
The children ought to get some love  
If no one else should ever get enough  
They'd better be the ones you love  
They'd better be the ones you love  
The children ought to get some love
