Nobody Else

The Alternate Routes

Oh, yeah, yeah, oh, no, no
Making my way through old photographs
Of the night when you first stood by my side
Old friends with smiles, some are here, some are gone
Good memories of our Senior High
Looking back, we're the only couple still together
Even then, I knew this love would be forever, I knew
'Cause there's nobody else in this world that could love you
Anymore than I do, always here for you
Nobody else in this world could love you more
Nobody could love you anymore than I do, I'm still here for you
Oh and still feel for you
Our lives have all changed, we've come a long, long way
Our faces show the lines of two young sons
And in their houses there will be pictures like the ones of you and me
Hope they can look back and smile, just like we have done
Never once have I ever felt the need for another, yeah, yeah
We were strong and survived the storm in time to discover
To discover one another, yeah
'Cause there's nobody else in this world that could love you
Anymore than I do, always here for you
Nobody else in this world could love you more
Nobody could love you anymore than I do, I'm still here for you
And all of the smiles we have won
Just from looking back and reliving all those good times
When we've been through all the pages
We'll just start again, we'll just start again, oh
Nobody else in this world could love you
Anymore than I do, always here for you
Nobody else in this world could love you more
Nobody could love you anymore than I do
Nobody else in this world could love you
Anymore than I do, always here for you
Nobody else in this world could love you more
Nobody could love you anymore than I do
Nobody else, nobody else, nobody else
Nobody else, nobody else, nobody else
Nobody else, nobody else, nobody else
