Leave With Me

JTR

You say you're fine with a broken smile,
Out in the cold and I don't know why,
I'm tryna see what the other guys,
Did to make you feel like you're not right.
All out of tears, try face your fears,
Baby, won't you let me in
It's not too late to make the breakLeave with me tonight,
Before your heart finds out and run away tonight,
Past the city lights, by the ocean side,
Leave with me tonightBreathe in deep and take that step,
To the place in the past where we first met,
I'm tryna make everything alright,
Cause I can see you need another sign,
All out of tears, try face your fears,
Baby, won't you let me in
It's not too late to make the breakLeave with me tonight,
Before your heart finds out and run away tonight,
Past the city lights, by the ocean side,
Leave with me tonightLeave with me tonight,
Before your heart finds out and run away tonight,
Past the city lights, by the ocean side,
Leave with me tonightHey, ohh
Take a leap of faith,
Try to walk beside every single lie,
Tell me if it's true, that you really want toLeave with me tonight,
Before your heart finds out and run away tonight,
Past the city lights, by the ocean side,
Leave with me tonightLeave with me tonight,
Before your heart finds out and run away tonight,
Past the city lights, by the ocean side,
Leave with me tonight
