

Number One

Tove Styrke

Praise cool, I'm sorry but there's no can do
My youth ain't tangled up in bad decisions
Poor you, you thought you could dictate the rules
Bohoo You're only eighteen
(With stomps to the beat)
But a killing machine
(With stomps to the beat)
Drain the noise of the bullshit
(With stomps to the beat)
With stomps to the beat
With stomps to the beat Oh my, the world's on fire and maybe I'm just chasing rhymes
Taking is easy and I don't care where it leads me baby
Oh my the more I try the closer I get to wasting time
No one ever wants to give you some
But everybody loves a number one
Oh na na
Everybody loves a number one
Oh na na
No one ever wants to give you some
But everybody loves a number one Hot glam seems far away from I a
I can neither understand it nor demand it Your tears don't shake my world like Britney Spears
She's fierce You're only eighteen
(With stomps to the beat)
But a killing machine
(With stomps to the beat)
Drain the noise of the bullshit
(With stomps to the beat)
With stomps to the beat
With stomps to the beat Oh my, the world's on fire and maybe I'm just chasing rhymes
Taking is easy and I don't care where it leads me baby
Oh my the more I try the closer I get to wasting time
No one ever wants to give you some
But everybody loves a number one
Oh na na
Everybody loves a number one
Oh na na
No one ever wants to give you some
But everybody loves a number one I can't praise your cool
There's just no can do
And it's that easy

Baby can't you see
You got nothing on me
It's just that easy Oh my, the world's on fire and maybe I'm just chasing rhymes
Taking is easy and I don't care where it leads me baby
Oh my the more I try the closer I get to wasting time
No one ever wants to give you some
But everybody loves a number one
Oh na na
Everybody loves a number one
Oh na na
No one ever wants to give you some
But everybody loves a number one
Everybody loves a number one
No one ever wants to give you some
But everybody loves a number one
