

Sets Up (feat. Pharrell)

Snoop Dogg

Sets up, chest out, in and out, in and out
Lift your arm, lift your arm, in a circle, in a circle
Swang out, hang out, bang out
Show these motherfuckers right where you from
Sets up, chest out, in and out, in and out
Lift your arm, lift your arm, in a circle, in a circle
Swang out, hang out, bang out
Show these motherfuckers right where you from
Coolest of the cool, I'm the goddamn man
Heater so hot need a goddamn fan
Everybody want gangsta, suckas don't live it
'Til they talkin' through that glass like, See you in a minute
That's not the Bigg Boss Dogg
I've been in it since a youngin', I'm a Eastside hogg
21st Street ridin', rollin' with my partners
Hat to the back in a rag spillin' vodka
Stompin' through the city in my big blue Chuck's
Lil' homies on the corner not givin' a fuck
So I chunked up the set like what's happenin' with you
Shit I just do what I do, I'm just stackin' it too
Is what he said to a loc as I dipped on out
Or as we say on the Eastside, you crippled on out
See the sunshine and palm trees, livin' it up
Don't forget the block boys givin' it up, where you from loc?
Sets up, chest out, in and out, in and out
Lift your arm, lift your arm, in a circle, in a circle
Swang out, hang out, bang out
Show these motherfuckers right where you from
Sets up, chest out, in and out, in and out
Lift your arm, lift your arm, in a circle, in a circle
Swang out, hang out, bang out
Show these motherfuckers right where you from
Show me where you're from
Show me where you're from
Show me where you're from
For the rules of the game, represent your shit
Flag around the steering collar makin' 'em sick
Shoot, the L.B. made me, gangbang for real
If ya made it through the '80s I'm a product of the shady
Snoop D O Doub', it's what I does
I'm worldwide love, the homies is like 'cuz
Stuck to the script and kept claimin' the team
They love it when I chunk it on the TV screen
Like a, Boss would do, how the fuck could you
Deny my gangsta, haters in my rearview
All around the world they respectin' a G
Overseas they respectin' the C, that's on me
I did it like I did it, mayne
Uh, if you ain't did it you ain't did a thang
Uh, you come through you better holler at me

You need beats you better holler at P now put your sets upSets up, chest out, in and out, in and out

Lift your arm, lift your arm, in a circle, in a circle

Swang out, hang out, bang out

Show these motherfuckers right where you fromSets up, chest out, in and out, in and out

Lift your arm, lift your arm, in a circle, in a circle

Swang out, hang out, bang out

Show these motherfuckers right where you fromShow me where you're from

Show me where you're from

Show me where you're from
