

Baby X3

Jaheim

Damn... damn...
Damn I messed up
Really really really messed up
No, I wanna come home
I promise, I promise please to do right by you. Let me open the door
And order your food
You know the simple things, cater to you
Yea, yea
Let's romanticize, make you smile
Wash your hair, run your bath
'Cause I know that's what you like, oh yea
Let's go to Tiffany's then let's head over to Vicky's Secret
Keep your style
I just think a woman shouldn't have to ask for anything
What I didn't do I'm tryna make up for
I swear I'm not the same
So believe me when I say I've changed I should've showed her (showed her)
Should've told her (told her)
Girl, I love you, ain't tryna hear it
Let's make it work
And I want you back, and I want you back
I'm a heartfelt
She said I heard it all before Baby baby baby I'll do right by you
Baby I'll do right by you
Baby baby tell me what I have to do
Baby I'll do right by you
Numbers in my phone, gone
I'm the one who's trippin every time I left you all alone
Girl if you love me come home, I never did wrong
I'll never hurt you girl
Baby baby baby I'll do right by you
Baby I'll do right by you I need to talk to your father (your father)
I need to size your ring
Set a date, find a place, honeymoon overseas
I know you'll like that baby
Go ahead and get 3 bridal things, get that dress from Vera Wang
Tell your girlfriends do the same
All the tears in the stars tonight, wish I could take it back
Here's my heart, it's not much, but it's all I have

And girl I swear that I'm not the same
So believe me when I tell you that I've changed I should've showed her (showed her)
Should've told her (told her)
Girl, I love you, ain't tryna hear it
Girl let's make it work
And I want you back, and I want you back
Out my heart woah
I swear I never said this before Baby baby baby I'll do right by you
Baby I'll do right by you
Baby baby tell me what I have to do
Baby I'll do right by you
Numbers in my phone, gone
I'm the one who's trippin every time I left you all alone
Girl if you let me come home, I'll never do wrong
I'll never hurt you girl
Baby baby baby I'll do right by you
Baby I'll do right by you This is a brand new day, this is a brand new start
This is a brand new me, a brand new you, two brand new hearts
A brand new lease on life
Something brand new on your finger
Brand new ways in why I say this
So much joy you're here to bring Baby baby baby I'll do right by you
Baby I'll do right by you
Baby baby tell me what I have to do
Baby I'll do right by you
Numbers in my phone, gone
I'm the one who's trippin every time I left you all alone
Girl if you let me come home, I'll never do wrong
Baby baby baby I'll do right by you
Baby I'll do right by you
Baby baby baby I'm the one for you
Baby I'll do right by you
Baby baby baby tell me
Baby I'll do right by you
