Underground

Unwritten Law

Won't you come to the other side
A via satellite
With me, my darling?
Let me help you through the suffering
I know you're hurt again
So trust in me nowStop, breathe, look inside of me
And tell me what do you see
Relate, but do not hesitate
To come with me tonightWon't you come to the other side?
Follow me down
Won't you come to the underground
So I can save your soul?'Cause it's part of you
And it's part of me
Synchronicity, yeah
I'm only here to ease you through the pain
And make it go away
Oh, sincerely nowStop, breathe and look inside of me
And tell me what do you see
Relate, but do not hesitate
To come with me tonightWon't you come to the other side?
Follow me down
Won't you come to the underground
So I can save your soul?
I can save your soul, oh, I can save your soul
Oh, follow me on down, oh, to the undergroundI'm fine on the other side
With you my darling
Relate, and do not hesitate
And come with me tonightWon't you come to the other side?
Follow me down
Won't you come to the underground
So I can save your soul?
I can save your soul, oh, I can save your soul
Oh, thirteen miles down, oh, to the underground
