# People Watching

## Johnson, Jack And Friends

Well, I'm just people watching
The other people watching me
And we're all people watching
The other people watching weAnd we're as lonely as we wanted to be
We're all as lonely as we wanted to be
Just as lonely as we wanted to be
I'm just you, you're just me
It's only true if we believeWell, there really ain't no use in stopping
What nobody never told me not to do
So I'll keep people watching, watching me now
Finding my way back to youAnd we're as lonely as we wanted to be
We're all as lonely as we wanted to be
I'm just as lonely as I wanted to be
I'm just you, you're just me
But it's only true if we believeI see so many feet going so many ways
People passing by, they got nothing to say
All on our own, just watching and confused
And nobody told me what to do
I can't stop breaking all the rulesNow I'm just people watching
Other people watching me
We're all people watching
Other people watching weAnd we're as lonely as we wanted to be
We're not so lonely as we wanted to be
I'm just as lonely as I wanted to be
Not so lonely, lonely, lonely, lonely
Lonely, lonely, lonely
