Good Morning Sunshine

The Steinways

Good morning sunshine, where have you been
What took so long, it's good to see you again
Good morning sunshine, you feel like a dream
I have been waiting for the promise you bring

It's been a long time, good morning sunshine

Everyday you find a new way to open up my eyes
Mercy and grace shine down on my face
Like sunlight from the sky

Good morning sunshine, where will you take me
There's mountains to climb and so much to see
A new adventure is waiting ahead
I'm so excited just to get out of bed

Let's see what we find, my sweet sunshine
Today is a new day, tomorrow's behind us and
We have been so blessed
Whatever's before us, I know that with his help
We'll surely pass any test
Good morning sunshine, good morning sunshine
