Friends

Travis

Who cheers you up when you are down?
Who brings you cups of coffee?
Who picks you up when you're in town?
Whatever makes you happy
And I'm glad you're better now
But I'm sad you're not around
Friends won't ever desert you or turn against
Friends won't love you and leave you to mend the fence
Who wakes you up when you're late for work?
Who makes the bed so lovely?
Who found your sock, who picked your shirt?

Whatever makes you love me
And I'm glad I'm better now
But I'm sad you're not around now
Friends won't ever desert you or turn against
Friends won't love you and leave you to mend the fence
Friends won't ever desert you or turn against
Friends won't love you and leave you to mend the fence
Friends will never deceive you or turn against
Friends won't love you and leave you to mend the fence
