

# Better Side of Me

## Modern Day Zero

The sooner that I realize  
These scars were never there  
I could place the blame on you  
And now that I'm alone  
The silence makes me feel  
You could have your way with me  
And you know  
You cried that I wasn't there  
So tell me what you want me  
Even though I know I need to  
Get away  
I wanna make you see[Chorus]  
The better side of me  
You turn away and never listen  
Do you see  
The better side of me  
When all these words go right through youHow could I have known  
By looking in your eyes  
That there was something there for me  
You would love to hide  
Now everything is gone  
So tell me what went wrong  
I guess that we will never know[Chorus]Do you see the better side of me[Chorus]Now I can place the blame on  
you
