

Worth the Wait

Shanay Holmes

You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
Then I'm worth the wait, just need to let you know
You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
Then I'm worth the wait, just need to let you know

Baby you amaze me
Lately we both been thinking about the same thing
Belive me last night
I almost didn't know how to act right
Not yes but not saying no
We got time, so lets take it slow
I ain't messing around
No baby I intend on putting it down when the times right

You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
and I'm worth the wait, just need to let you know
You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
and I'm worth the wait, just need to let you know

hot dam, your too fine
I know I've had you waiting for a long time
It's all good, it's bad,
Your on the right track, best believe that
Not yes but not saying no
We got time, so lets take it slow
I ain't messing around
No baby I intend on putting it down when the times right

You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
and I'm worth the wait, just need to let you know

You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
and I'm worth the wait, just need to let you know

I know exactly what you want
I know exactly what you need
Your hoping that you gunna get you some
But hunny you aint getting none
I know exactly what you want
I know exactly what you need
Your hoping that you gunna get you some
But hunny you aint getting none

You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
and I'm worth the wait, just need to let you know
You want me, but you can't have me,
I'm gonna make you want, we're gunna take it slow
You love me, then your wait for me,
and I'm worth the wait, just need to let you know
