Follow the River

Katey Sagal

Follow The River
Coming over on a whim
Coming over playing horns and violins
Scenes and sinners are marching back in
To lead me on, lead me on
I've been walkin round in a heatI've wasted all my nights and all of my days
I've been lying to myself
I've been trying to be someone else
But it's so simple now
It's no secret howFollow the river
Down to the sea
Where there's suppose to beIt's never easy that's a fact
Nothings for certain
You can always take back
On the last romantic planning
You must make a pactPromise to love, Promise to love
You gotta learn to love yourself
Then you can try to love somebody else
I've been trying but it's so hard
And I've been playing with some shaky cards
But it's so simple nowWhen someone shows you how
Follow the river
Down to the sea
Where theres suppose to beBut it's so simple now
Once someone shows you howFollow the river
Down to the sea
Where there's suppose to beGotta follow the river
Back down to the sea
Where there's suppose to be
