

# Into the Sea

## Seapony

When I was on the ground  
and you looked upside down  
    the noise was all around  
just like the rain falls down  
    falls down on me  
    falls down on me  
        into the sea  
        into the sea  
    I wonder, if you...  
    We didn't make a sound  
    No one could show me how  
    We didn't make a sound  
    I still can't figure out  
        What I have found  
        What I have found  
    When you're around  
    When you're around  
    I wonder, if you...  
    I hope, I hope we never  
        Feel so, alone together  
    There are still some things  
    some things that I can't see  
    When we walk down the street  
        there is a part of me  
        where there's no light  
        where there's no light  
        Where it is night  
        Where it is night  
    I wonder, if you...
