Cold Wind In August

Van Morrison

I waited for you, you waited for me
That it seemed like
Seemed like a mighty long timeBaby, I had to have you
Oh, I had to have you
Come rain, rain or shineIt was a cold wind in August
Shivers up and down my spine
I was standin' in your garden
In the California pineI was standing shivering
I've got the fever in the rain
But I can't come on back to see you
Again and again and againI said, I, I had to have you
Baby, I had to have you
Come rain, come rain or shineIt was a cold wind in august
Shivers up and down my spine
And I was standing in your garden
In the California pine, California pineIt was a cold wind in august
Shivers up and down my spine
I was standin' in your garden
In the California pine, in the California pineIt was a cold wind in august
I was pushed on through September
Oh, pushin' through September in the rain
Pushin' through, pushin' through September in the rainOoh, it was a cold wind in August
Shivers up and down my spine
I was standin', standin' in your garden
In the California pine
